SUMMARY

As a Software Test Engineer with a background in Frontend Development, SharePoint Design, and Digital Associate work, I have a diverse skill set that enables me to approach projects from a holistic perspective. I am proficient in a range of frontend technologies including HTML, CSS, and JavaScript, and have a strong understanding of user experience design principles. My attention to detail and ability to think critically make me an asset to any team, and I am excited to continue growing my skills as a Frontend Developer.
